Education

Academy+Plus :: July 2016 – Present

Subsidiary of the french Ecole 42 private programming school

1st place at 2016's entry.

Intermediate skills in the C language and Unix scripting.

Basic skills in PHP, Javascript (JQuery / AJAX), HTML/CSS, Regex and SQL.

Some of the projects undertaken (all available on my github repository):

- PHP Bootcamp – Many subprojects involving server-side PHP coding, OOP, SQL databases management and website development with Javascript (pure and JQuery).
- ft_ls – The 'ls' Unix command, recoded in C. Efficient command-line flag and error management, program structure designing.
- Fillit – Algorithm for finding the smallest possible square built using a list of given tetris figures. Used concepts such as NP-complete complexity, recursion and greedy-style solving.

Mathematics & Computer Science :: 2013 - Present

"Al. Papiu Ilarian" National College, Tg. Mures.

Attended public speaking / debate classes and national contests.

Awards

Bronze Medals at the Romanian National Mathematics Olympiad.

Special Prize at the Romanian National Chemistry Olympiad.

Over 40 prizes at national mathematics contests
